Setting the Scene

- Some assumptions as a starting point
- Science drives specialised nutrition:

Good Practice of Legislation Means

- Based on Science & Implementable
 - Ability to manufacture (= “applied science”)
 - Enforceable by authorities
 - Regulatory security.

- Transparency in our interaction
- Transparency in implementation

Concretely

- International scene: Codex Alimentarius

- Uniqueness of National legislation

Conclusion – 5 dimensions

- Regulatory & Technical
- Policy
- Information
- Science-based nutrition
- Exchange and collaboration
